

TexPrint[®]XPHR

Small Format 'High-Release' Quick-Dry Water Based Sublimation Paper

The Best paper for both hard and soft substrates.

TexPrint[®]XPHR is the #1 selling small format dye-sub paper in the world!

What's more, the **TexPrint[®] XPHR** is still the only 'hybrid' paper that can be used successfully for both hard and soft substrates.

Texprint[®]XPHR is a simpler way of getting things done. One product 'fits all' is the perfect way for distributors and end-users alike. There is no need to use different papers and profiles for different applications.

Roll Widths from 13" to 44" are in stock.

Tested and proven with Sawgrass Desktop Inks and all major brands of large format digital sublimation inks including:

- Sawgrass
- Sensient
- Manoukian
- J-Teck
- OEM Brands

TexPrint[®]XPHR is fully compatible with Piezo Print head technology on all EPSON Desktop and popular large-format dye-sublimation printers, including:

- Epson
- Mimaki
- Roland
- Mutoh

Available in:

- All sheet sizes and all A sizes
- Rolls for desktop printers in 13" & 17"
- 105gsm & 140gsm weights

TexPrint[®]XPHR is available through authorized distributors worldwide.
